# Workshop Announcement

Within the DFG Priority Programme 'Adaptomics' 1529 we will hold the

## **BrassiBase Workshop IV**

open to up to 20 participants.

### **Dates**

**Thursday 5th October**, 10 a.m. to **Friday, 6th October** 12.30 a.m. 2017  
Get-together on Thursday night

### **Place**

**Botanic Garden, Centre for Organismal Studies (COS), Heidelberg University**  
Im Neuenheimer Feld 361, 69120 Germany  
Car parking spots are available (to be paid),  
<http://www.cos.uni-heidelberg.de/index.php/directions>

### **Theme**

The participants of our fourth 1.5 day *BrassiBase* workshop will become more familiar with the biodiversity and evolution of the Brassicaceae and our „final“ perspectives after six years of our SSP will be presented. The workshop should be interactive and the content can be determined by the participants' requests. We will also inform you about the latest updates and work in progress of the knowledge database system *BrassiBase*. Some time should be saved to discuss future collaborative research options focusing on 'genomes and speciation' in Brassicaceae.

### **Registration**

[claudia.hauber@cos.uni-heidelberg.de](mailto:claudia.hauber@cos.uni-heidelberg.de) until September 1st 2017.  
A detailed schedule of the workshop will be provided mid of September.
