

Self, Other and Memory

Special Issue of „Consciousness & Cognition“, Volume 19, Issue 3, 2010
ed. by Albert Newen, Kai Vogele and Christoph Michel

The key topics of this special issue are self-consciousness, understanding others and the role of memory, while the latter is especially investigated with respect to its relation to self-consciousness. It is furthermore a characteristic feature of this special issue that most of the papers are dedicated to an interdisciplinary research program combining the perspectives of philosophy, psychology, neurobio-logy and cognitive neuroscience.

Contents

Hanna C. Kockler, Lukas Scheef, Ralf Tepest, Nicole David, Bettina H. Bewernick, Albert Newen, Hans H. Schild, Mark May & Kai Vogele

Visuospatial perspective taking in a dynamic environment. Perceiving moving objects from a first-person-perspective induces a disposition to act

Olaf Blanke, Lukas Heydrich, Sebastian Dieguez, Thomas Grundwald & Margitta Seeck

Illusory own body perceptions. Case reports and relevance for bodily self-consciousness

Ferdinand Binkofski, Doreen Jirak, Mareike Menz & Anna M. Borghi

Grasping language. A short story on Embodiment

Werner Greve & Dirk Wentura

True lies. Self-stabilization without self-deception

Christoph Michel & Albert Newen:

Self-Deception as 'Pseudo-Rational' Regulation of Belief

Alfred Mele

Approaching Self-deception. How Robert Audi and I Part Company

Markus Werning

Descartes Discarded? Introspective Self-awareness and the Problems of Transparency and Compositionality

Gary Bente, Haug Leuschner, Ahmad Al-Issa & James J. Blascovich

The Others. Universals and Cultural Specificities in the Perception of Status and Dominance from Nonverbal Behavior

Angelica Staniloiu, Hans J. Markowitsch & Matthias Brand

Psychogenic Amnesia. A Malady of the Constricted Self

Josef Perner, Daniela Kloof & Michael Rohwer

Retrospective and Prospective for Mental Time Travel. Emergence of episodic remembering and mental rotation in 5- to 8-year old children

Magdalena Sauvage

ROC in animals. Uncovering the neural substrates of recollection and familiarity in episodic recognition memory

Kirsten G. Volz, Lael J. Schooler & Yves D. von Cramon

It just felt right. The neural correlates of the fluency heuristic

Gottfried Vosgerau

Memory and Content
