

# IGSN - SYMPOSIUM

Monday, September 5<sup>th</sup> 2016 • 15.00 (3 pm)

FNO – 01 / 117

## Involvement of cortico-subcortical loops in perceptual processing

**15:00**      **RANDY M. BRUNO**  
Department of Neuroscience and The Zuckerman Mind Brain Behavior Institute,  
Columbia University, New York, USA

### **The many input layers of the neocortex**

**16:00**      **JUDITH HIRSCH**  
Department of Biological Sciences / Neurobiology,  
University of Southern California, Los Angeles, CA, USA

### **Neural circuits for visual processing in thalamus**

17:00      Coffee break

**17:15**      **HAJNALKA BOKOR**  
Laboratory of Thalamus Research, Institute of Experimental Medicine,  
Hungarian Academy of Sciences, Budapest, Hungary

### **Cortical control and extrathalamic inhibition in the thalamus**

#### **Host:**

PATRIK KRIEGER  
Department of Systems Neuroscience, Faculty of Medicine, Ruhr University Bochum

**Guests are welcome!**
