from Shanghai, visa expenses, health
insurance, and any additional personal
expenses

Certificate

A certificate of completion of the Shanghai-
Summer School 2023 will be awarded to
students who have completed all the courses
and final project.

About Shanghai Summer School (Europe) 2023

Each year since 2011, the Shanghai Summer School is sponsored by Shanghai Municipal Education Commission and held by Tongji University. In 2023, the summer school will be hosted by the College of Architecture and Urban Planning of Tongji University, and students from Europe will be invited to participate in all the programs in person.

Shanghai has long aimed to become “City of Innovation,” “City of Humanity,” and “City of Ecology.” It has been widely accepted as a sustainable urbanization model in China and the world as well. The theme of this year’s Shanghai Summer School will be “Chinese Urban and Architectural Culture: History and Future,” which engages diverse perspectives and interdisciplinary studies across the fields of urban, cultural, spatial, and ecological studies in the context of pressing challenges from urbanization process, intelligent technology and ecological crisis. The contemporary cities in China is always thought of as an incubator for new ideas and practices targeting a new habitat paradigm. Students in the summer school are encouraged to work with world-renowned practitioners and scholars, and explore the potential culture, technology and ecology for future humankind and all lives together.

This year’s Shanghai Summer School(Europe) includes two lecture series and three workshops. The two lecture series focus on 1) authentic Chinese culture and 2) the urbanism of Shanghai. The three workshops will guide the students to investigate 1) the urban regeneration practices of Shanghai, 2) the cutting edge computational technologies in design and urbanism, and 3) the shared habitat for mankind and nature. Each workshop will last for roughly a week and will be mentored by a group of experienced professors and tutors. Students will have the chances to observe the everyday lives of urban neighborhoods, DIY digital installations, and explore the animal’s habitat in the neighboring city of Nanjing. All campers are required to participate in the workshops with their unique educational backgrounds and contributed to the final scholarship in different ways.

Application and Deadline

We expect students

1. Fully registered undergraduate and graduate students at a European university.
2. Interested in urban and spatial studies. Majored in architecture, urban planning, engineering, or any other fields in arts, humanity and science.

Application documents

1. Recent passport photo
2. Passport’s information page
3. Proof of Enrollment at your university
4. CV

How to register

1. Contact person: Ms. Shuxin Liu.
email: caup@tongji.edu.cn
2. Contact number: 65983592 ext 803

Deadline

1. Application deadline: May 30th, 2023
2. For more information, please visit https://www.cognitoforms.com/Caup1/_2023ShanghaiSummerSchool3SProject
