

CRC 1625 4th and 5th Colloquia

Atomic-scale understanding and design of
multifunctional compositionally complex
solid solution surfaces

CRC 1625

RUB

Monday, 24.03.2025, 15:00 – 16:00, online

Prof. Dr. Matthias Arenz

University Bern

Department of Chemistry, Biochemistry and Pharmacy

will talk about

“Electrochemical Synthesis of High Entropy
Nanoparticles and their Applications in
Electrocatalysis”

Tuesday, 25.03.2025, 13:30 – 14:15, online

Dr. Michael Busch

Luleå University of Technology

Department of Engineering Sciences and Mathematics

will talk about

“Green Chlorate – Dream or Possibility? ”
