

Workshop: Brassicaceae - introduction to family-wide biodiversity part II.
Time: 24.-25. october 2013

Within the framework of the DFG Priority Programme “Adaptomics” 1529 we are offering a workshop on Brassicaceae diversity open to up to 10 participants.

Aims and Scopes:

We offer a 1.5 day workshop to become familiar with the enormous diversity of Brassicaceae. The workshop aims to introduce to principal problems of taxonomy and systematics of selected groups of taxa and provide an opportunity to become more familiar with the respective genera.

The workshop should be interactive, and the final discussions and contributions depend on the needs claimed by the participants – with special emphasis on taxa of SPP relevance.

We also introduce you to the latest update of the knowledge database system *BrassiBase*.

Content:

Introduction to theory:

1) keynote lectures on the following genera and groups of taxa

Noccaea and tribe Coluteocarpeae

Arabidopsis

Arabis and tribe Arabideae

Cardamine

... *Biscutella* or other genera if asked for ...

2) in depth discussions on the various groups of taxa

3) get together and barbeque on thursday night (24th october)

Time scale:

starting at 10 am, 24th october

ending: around 3 pm, 25th october

For SPP members travel costs and accommodation (if “at moderate level”) will be reimbursed.

Special (confirmed) guests will be: Prof. Dr. Ihsan Al-Shehbaz, Prof. Dr. Herbert Hurka

Registration: claudia.hauber@cos.uni-heidelberg.de

until september 15th 2013

a detailed scedule of the workshop will be provided at the end of september

Place: Im Neuenheimer Feld 340 (Botanical Garden)

Car parking spots are available (to be paid)

http://www.cos.uni-heidelberg.de/index.php/Directions?l=_e

lunch/breaks: For little money we will organize small snacks, drinks and coffee

accomodation (please take care by yourself as early as possible ...):

e.g. Hotel Cafe Frisch (500 m)
