

HLN-Kolloquium WS 2011/2012

jeweils Montag ab 13:15 in NC 02/99

Programm

24.10.2011 Dr. Alexandre Tkatchenko

Fritz-Haber-Institut Berlin

Van der Waals Interactions in Physics, Chemistry, and Biology

07.11.2011 Prof. Dr. Dominik Eder

Universität Münster

Nanocarbon-inorganic hybrid materials as next-generation photocatalysts

14.11.2011 Dr. Andreia Da Rosa

Universität Bremen

Theoretical investigations of ZnO/organic hybrid interfaces

09.01.2012 Dr. Thomas Jansen

Universität Groningen, Niederlande

Determining protein structure and dynamics in solution with (non)linear vibrational spectroscopies

16.01.2012 Dr. Lars Jeuken

Leeds University, UK

Lipid-membrane modified electrodes to study electron-transport chain enzymes
