GOOD ADVICE DOESN'T HAVE TO BE EXPENSIVE - THE COUNSELING GROUP FOR TEACHERS

You are searching for a group of colleagues with whom you can collectively discuss your questions and ideas about teaching?

The counseling group offers a platform in which general and specific questions about learning and teaching can be discussed and members can give each other interdisciplinary and cooperative advice. It is open for teachers from all faculties who want to talk about general aspects of teaching, as well as specific questions from their own teaching practice.

Each semester, five dates are offered. Each of those dates comprises three work units of 45 minutes each and they deal with different contents and questions concerning teaching.

Maybe you have already chosen to acquire the certificate „Professional Teaching Competence for Higher Education“, which offers you a comprehensive qualification for continuous education. In this case, you will encounter the counseling group already in the basic module, as for its completion, a total of five sessions in this group are required. You can complete all the required sessions within one semester, or spread them on several semesters.

The dates for the counseling group are published each summer for the following winter and summer semester in our annual program for professional development.

We are looking forward to your application!
