

Dear Sir or Madam,

In the Sino-German year of Science and Education 2009/2010 the Federal Ministry of Education and Research of Germany supports bilateral projects, events and workshops that encourage bilateral cooperation of science, technology and education. The motto is: "Together on the Way to Knowledge" (<http://www.deutsch-chinesisches-jahr-2009-2010.de/>).

In spring 2009, the Geography Department of the Ruhr-University Bochum started a project on "**Sustainable Integrated Land Management in Former and Present Mining Areas**" with several Chinese partners. Less than a month ago, the German delegation of 3 professors and 6 young scientists of the Ruhr-University returned from their first research-trip to China. Now they want to share their experiences and first results of their integrated, interdisciplinary bilateral research.

The Geography Department of the Ruhr-University Bochum hence invites all international scholars and interested public to the following exhibition:

WHAT?

Structural Change in the Ruhr Area and Sustainable Integrated Land Management in Former and Present Mining Areas in China

WHEN?

19. - 30.07.2010 between 11 a.m. and 4 p.m.

Official opening: 21.07.2010 at 2 p.m.

WHERE?

International Lounge ("Mensa" building)

We would be very pleased about your attendance!

Prof. Dr. Harald Zepp

Applied Physical Geography

Faculty of Geosciences

Ruhr-University Bochum
