

**PHILOSOPHY MEETS  
COGNITIVE SCIENCE**  
RESEARCH COLLOQUIUM

Stiftung  
Mercator

**Thursdays 16-18h, Room GA/04 187**

All RUB students and faculty members interested are cordially invited to the talks of the research colloquium. See [www.rub.de/phil-lang](http://www.rub.de/phil-lang) for further information.

Organization: Prof. Albert Newen, Prof. Markus Werning

16 October 2014	<b>Taavi Laanpere, M.A.</b> (U Tartu)	<b>On what Memory Traces are not</b>
23 October 2014	<b>Prof. Dr. Suddendorf</b> (U Queensland)	<b>Reflecting on Reflection</b>
30 October 2014	<b>Prof. Dr. Kristina Musholt</b> (U Magdeburg)	<b>Self-Consciousness in Non-Human Animals?</b>
06 November 2014	<b>Pascale Ruder, MSc, M.A.</b> (RUB)	<b>Why Social Norms Matter for the Attribution of Causal Responsibility in Moral Cognition</b>
13 November 2014	<b>Dr. Erica Cosentino</b> (RUB)	<b>The Time Course of the Integration of Sensory-Motor Information during Semantic Processing</b>
20 November 2014	<b>Dr. Peter Brössel</b> (RUB)	<b>Was sind "tiefe" Meinungsverschiedenheiten und wann sind sie möglich? (Talk will be in German)</b>
27 November 2014	<b>Dr. Vivian Bohl</b> (U Tartu)	<b>Relationships instead of Joint Ownership</b>
04 December 2014	<b>Prof. Dr. Philipp Hübl</b> (U Stuttgart)	<b>Varieties of Attention</b>
11 December 2014	<b>Dr. Markus Schrenk</b> (U Düsseldorf)	<b>Special Science Laws: Emergence and Exceptions</b>
18 December 2014	<b>Maria Spsychalska, MSc, M.A.</b> (RUB)	<b>Between Truth and Assertibility: the Case of Superlative Quantification</b>
08 January 2015	<b>Prof. Dr. Frank Hofmann</b> (U Luxembourg)	<b>Intentionalism and Disjunctivism about Perception</b>
15 January 2015	<b>Dr. Momme von Sydow</b> (U Heidelberg)	<b>Bayes instead of Bias? On Pattern Probabilities</b>
22 January 2015	<b>Dr. Tobias Starzak</b> (RUB)	<b>Causal Understanding and the Evolution of Rationality</b>
29 January 2015	<b>Prof. Dr. Sebastian Watzl</b> (U Oslo)	<b>Salience. Dynamics for Consciousness</b>
05 February 2015	<b>Prof. Dr. York Haggmayer</b> (U Göttingen)	<b>Thinking about Causal Relation: Does Causal Thinking of Humans rely on Bayesian Nets?</b>
